## Is my use considered **Featured** or **Background**?

Use this guide to determine your category for **each** stage/  
area of your event.

- **Featured** - where live music, recordings and/or Music Videos (within APRA and/or PPCA's repertoire) are given prominence or used as a feature of the event (or any part of the event) or advertised to the general public as forming part of the entertainment for that event. Featured Music is where the music is the focal point or is integral to the event
- **Background** - means music (within APRA and/or PPCA's repertoire) not used as a prominent feature and/or characteristic part of the entertainment of the event or advertised to the general public as forming part of the entertainment of the event. Background Music is incidental music where the music is not intended to be a focal point and has no physical performers.
