By Community Music Group we mean individual bands, choirs, ensembles or performance groups that have public performance of our music as their primary purpose. There are a few other ways we determine if your Group falls under this licence scheme, see page 2. This licence scheme may also cover Other Community Groups - social interest groups, youth or senior groups, social clubs or church activities which fall outside the Christian Copyright Licensing International (CCLI) scheme with OneMusic.

## Why do I need a OneMusic licence?

- 1 Shows your organisation respects and supports songwriters and recording artists, our cultural creators.
- 2 Permission. If you use music that is protected by copyright within your Group, Commonwealth legislation requires permission (a licence) from the creators of that music. You can read independent legal information at [copyright.org.au](http://copyright.org.au).
- 3 The big one. You benefit by using music: keeping people entertained, engaged and creating better lives.

Music creators generally authorise two organisations to administer their rights and collect their royalties in Australia. A OneMusic licence bundles all those rights into one licence and simplifies the process of gaining the required permission to use our music. If you wanted to use our music, and you did not have this licence, you would, for example, need to deal directly with the composers, songwriters, music publishers, recording artists and record labels who own the rights in the music you wish to use.

## Where does the money go?

OneMusic distributes the fees it collects to APRA AMCOS and PPCA, the bodies behind the licensing initiative. After the deduction of administration and operational costs, all fees collected are distributed to members or licensors (according to a range of direct data, sample data and other data sources for other uses of music).

## What music can I use?

We've done the hard work for you so our licence covers you to use any of our music, which includes the vast majority of all commercially released music from around the world.

## Will the rates change?

Apart from yearly CPI reviews OneMusic will not increase or change licence fees without first consulting the industry.

Our fees include GST so 10% is paid to the Australian Tax Office as GST.

## Supporting Music Creators

Last year the bodies behind OneMusic paid a royalty to more than 1.4 million songs, and more than 50,000 local songwriters and recording artists.

Let's be honest: music creators have earned this money. They've earned it through the hard work it took to reach the stage of being a professional songwriter or recording artist and they've also earned it by putting thousands of hours into creating a product organisations and groups want to use.

### What do the terms in the table above mean?

**What is an APRA Work and an AMCOS Work?** A musical work is the underlying words and music of a song that have been written by a songwriter and/or composer. The Australasian Performing Right Association (or APRA) and the Australasian Mechanical Copyright Owners Society (or AMCOS) have been given the right to license the APRA Works and AMCOS Works by the owners of the copyright – the songwriters, composers and music publishers – so that those words and music can be played to the public by licence holders in their businesses and/or copied. APRA, operating as OneMusic Australia, has been authorised by AMCOS to license the AMCOS Works on its behalf.

**What is a PPCA Sound Recording?** A sound recording is simply a physical recording of a piece of music or song (such as what's on a CD or a digital file like an MP3) and a PPCA Sound Recording is a sound recording that the Phonographic Performance Company of Australia (or PPCA) is authorised by the copyright owners to license for copying and for performing in public - for instance when a business plays music to their customers. OneMusic Australia has been authorised by PPCA to license the PPCA Sound Recordings on its behalf.

**A Live Music Performance** is where singers, musicians or performers such as a live band play guitars or a keyboard while belting out a song, all live.

A separate licence scheme covers music used in a **Dramatic Context**. Dramatic Context is defined as the performance of musical works: a) in conjunction with a presentation on the live stage that has: (i) a storyline; and (ii) one or more narrators or characters; or b) as a Ballet.

When we talk about **reproduction of AMCOS Works** and **Approved Print Music** we mean making physical copies of Original Print Music through a photocopier or printer (not digital copies shared on a computer). You must leave the print music unaltered, that is, you can't 'copy' to make a new Arrangement.

**Community Event** means any event where the Community Music Group's band, choir, ensemble or performance group performs, provided that the performance is conducted:

- free-of-charge; or
- if conducted for a fee, only for the purpose of recovering the Community Music Group's costs or for fundraising directly for the Group.

An **Arrangement** is an adaptation of an AMCOS work (musical composition) such as re-scoring for a different instrument or for a different genre.

## Examples:

The licence fees in these examples apply for licences taken out between 1 September 2023 and 31 August 2024.

### Happy Day Choir

The Choir perform twice a year and sing a repertoire of 12 songs including some Australian hits. They don't use any backing tracks in their actual performances. Happy Day Choir requires the following annual cover from OneMusic:

-  Live performances of APRA Works and AMCOS Works (music) \$320.63
-  Reproducing (taping) their performances - \$0 included in package above
-  Photocopies of the Print Music - \$0 included in package above

-  Live performances of APRA Works (music) \$99.50

## Deductions & Payments

If your OneMusic annual licence fee is more than \$500 we will invoice you quarterly, or you can opt to pay annually no matter what your Licence Fee amount is. (Just a note that we calculate your quarterly licence fee according to the relative number of days in each quarter, not by dividing your annual fee by four).

## Do I have to go through OneMusic to play music in my Group?

If you want to use our music you must have permission and generally pay a licence fee. If you want access to the largest possible music collection, the OneMusic licence provides the easiest and most cost effective way to access the world's repertoire of music. If you are happier with less choice there are other options, which may include direct licensing arrangements with copyright owners or solely using music outside the OneMusic repertoire.

If you make a direct arrangement for only your sound recording use or only your musical work use, contact OneMusic Australia so we can adjust your licence fee.
